

NORTH CAROLINA STATE BOARD OF
EXAMINERS OF ELECTRICAL CONTRACTORS

NEWSLETTER

AUGUST 2006

EDITION #50

MESSAGE FROM THE CHAIRMAN

As I have traveled around the state in the past year attending trade shows, your association conventions and other electrical and certification themed meetings, I've had the chance to visit and discuss with a great number of you the current state of affairs in our electrical industry. Many of you have provided unique and valuable suggestions and insights we consider seriously as we deliberate current issues and future directions for the board.

However, one comment and concern that seems to arise frequently is that the *image* of our industry is not what it used to be. I first heard this concern expressed several years ago by some in the electrical industry before I even came on the board. We are not alone in the "image battle", however. I hear the same thing from almost every one employed in a trade.

Image, of course, is the way that others perceive us.....our pride, our professionalism, our job skills, our quality of work, the importance of our work to society and even the ways in which we dress and conduct ourselves in our communities. I know many of you and I know that you present a positive image each and every day on the job and in your communities. However, in this era of mass communication and everyone striving for that "fifteen minutes of fame", we have to work extra hard to let the public know who we are, the value of what we do, and the care, pride and professionalism with which we do it.

Many trades have found it beneficial to identify those that have attained qualifications with not only a "paper" license or certificate but with embroidered patches that can be attached to clothing for the public to see. As an example, *Automotive Service Excellence* (ASE) provides certification patches for automotive technicians that have passed their tests and met work requirements. Now, most people look for the ASE arm patch before having car repairs done. Computer repair technicians, nurses, pharmacists and hundreds of others wear license or certification identifications.

In 2004, the board created an embroidered arm patch that identified the wearer as a "Qualified Individual" in the electrical field. The purpose in creating the patch was to help identify you as skilled technicians qualified to perform electrical installations and services. I would like to see our own *North Carolina Board of Examiners of Electrical Contractors* "Qualified Individual" patch worn proudly. Perhaps it could be a step toward improving an image many of you feel is not what it once was.

Best of luck to all of you.

Dr. Jim Clark, Board Chairman

Electrical Contractors Newsletter

This newsletter is published semi-annually as a service to electrical contractor licensees and others in the electrical industry. Suggestions for articles of interest for publication in this newsletter are welcome.

OFFICERS ELECTED

During its June, 2006 Regular Fourth Quarter Board Meeting, the Board elected officers to serve July 1, 2006 through June 30, 2007 as follows:

Dr. Jim Clark – Chairman
Gray Bryant – Vice Chairman
Secretary-Treasurer – Robert L. Brooks, Jr.

COMMITTEES APPOINTED

Dr. Jim Clark, Board Chairman has appointed Board Committees for the 2006-2007 fiscal year as follows:

FINANCE COMMITTEE:

Members: Three members of the Board: Julian R. Burns, Chairman, Tim Bradley and Curtis Kennedy.

RULES COMMITTEE:

Members: Three members of the Board: Tim Bradley, Chairman, Dr. Tony Mitchell and Curtis R. Kennedy.

APPLICATION AND CONTINUING EDUCATION COMMITTEE:

Members: Three members of the Board: Dr. Tony Mitchell, Chairman, Julian R. Burns and Jerry Tucker.

EXAMINATION COMMITTEE:

Members: Three members of the Board: Gray Bryant, Chairman, Dr. Tony Mitchell and Jerry Tucker.

DISCIPLINARY COMMITTEE:

Members: Two members of the Board: Jerry Tucker, Chairman and Gray Bryant.

LEGISLATURE CLARIFIES BIDDING ON PUBLIC JOBS

The recently adjourned General Assembly passed a revision to G.S. 87-1.1 which will make clear the ability of electrical contractors, as well as plumbing or mechanical contractors, to bid on public jobs without being required to have other license. The bill is House Bill 2882 and can be found on the General Assembly website. Previously, the Legislature had amended G.S. 87-1.1 to make clear that electrical, plumbing and mechanical contractors could bid work which included a small amount of general construction without being required to be licensed as a general contractor. Recent issues made clear that an electrical contractor would still be required to hold a plumbing or heating license if the job contained any plumbing or mechanical work. Likewise, a plumbing or mechanical contractor was required to have an electrical license in order to bid work including even a small amount of electrical work.

The change in HB2882 reads as follows:

SECTION 2. G.S. 87-1.1 reads as rewritten:

§ 87-1.1. Exception for licensees under Article 2 or 4.

G.S. 87-1 shall not apply to a licensee under Article 2 or 4 of this Chapter of the General Statutes, G.S. 87-43 shall not apply to a licensee under Article 2 of this Chapter of the General Statutes, and G.S. 87-21(a)(5) shall not apply to a licensee under Article 4 of this Chapter of the General Statutes when the licensee is bidding and contracting directly with the owner of a public building project if: (i) a licensed general contractor performs all work that falls within the classifications in G.S. 87-10(b) and the State Licensing Board of General Contractor's rules; and

(ii) the total amount of the general contracting work so classified does not exceed a percentage of the total bid price pursuant to rules established by the Board; and (iii) a licensee with the appropriate license under Article 2 or Article 4 of this Chapter performs all work that falls within the classifications in Article 2 and Article 4 of this Chapter.

It is important to remember this change is limited to public projects, and that only a licensed electrical contractor can bid, propose or perform a job which is entirely electrical work. If the work is non-public work and has other trades in it also, then a licensed general contractor can include the electrical in his bid and sub to a licensed electrical contractor.

IN MEMORY

J. Lee Hauser

It is with deep sorrow that we inform you of the passing of former board member J. Lee Hauser who died June 25, 2006.

Mr. Hauser, of Raleigh served as a board member from 1996 to 1999. He completed 26 years of service with the NC Department of Insurance and retired in 1999. He made many outstanding contributions to the Board and public safety. His family and many friends in the industry will truly miss Mr. Hauser.

John Younger

It is with deep sorrow that we inform you of the passing of John Younger on May 25, 2006. Mr. Younger retired from the City of Burlington in 2000 as an electrical inspector. He was a licensee of the Board and approved continuing education instructor.

INSTRUCTOR OF THE YEAR AWARD

The Board proudly presented Mr. Albert Thomas Russell the third Continuing Education Instructor of the Year award at the North Carolina Electrical Institute Meeting on April 4, 2006. Dr. Clark, Board Vice Chairman, presented Mr. Russell with the award. Mr. Russell expressed his appreciation and thanked everyone for their dedication and friendship he has received throughout the many years he has been associated with the electrical industry.

Mr. Russell is an Unlimited Qualified Individual for the NC State Board of Examiners of Electrical Contractors and a Standard Level III Electrical Inspector for the NC Department of Insurance employed with the City of Thomasville Inspection Department. He has been an asset to our Electrical Industry as a Continuing Education Instructor for Davidson Community College at the Lexington and Davie Campuses. We attribute a great portion of the success of the Electrical Industry through Continuing Education by Providers and Instructors like Mr. Russell.

Mr. Russell has a wife, Gina, and two sons Albert and Michael. He is also the proud grandfather of two.

The Board would like to express their appreciation and gratitude to Mr. Russell's continued dedication and service for being an instructor for the Continuing Education Program.

We would like to extend to Mr. Russell continued success in the electrical industry.

To cast your vote for the 2006 Continuing Education Instructor of the Year Award please look for the ballot in the December 2006 newsletter. The entries will be due on or before February 28, 2007.

ARE YOU IN VIOLATION?

If you are conducting business in any name other than the name in which your electrical contracting license is issued, you are in violation of ***Title 21 NCAC 18B .0402 LICENSE NAME REQUIREMENTS.***

Rule .0402 is reprinted here for your reference.

.0402 LICENSE NAME REQUIREMENTS

(a) Issuance of License. The name in which a license is issued must be distinguishable upon the records of the Board from the name in which a license has already been issued. If the name requested, after deleting all spaces, punctuation marks, articles, prepositions, conjunctions and, whether abbreviated or not, "corporation," "incorporated," "company," or "limited," is not identical to the name in which a license has already been issued, it shall be distinguishable. The substitution of a numeral for a word that represents the same numeral shall not make the name distinguishable.

(b) Name In Which Business Must Be Conducted. All electrical contracting business, including all business advertising and the submission of all documents and papers, conducted in the state of North Carolina by a licensee of the Board shall be conducted in the exact name in which the electrical contracting license is issued.

(c) Notification of Address and Telephone Change. All licensees shall notify the Board in writing within 30 days of any change in location or mailing address and telephone number.

History Note: Authority G.S. 87-42; Eff. October 1, 1988; Amended Eff. March 1, 1999; February 1, 1996.

If you are unsure about compliance, please contact a Board staff member at (919) 733-9042.

CONTINUING EDUCATION PROGRAM FOR CODE ENFORCEMENT OFFICIALS

by Kathy Williams, Certification Coordinator, NC Code Officials Qualifications Board

We invite you to participate in the NC Code Officials Qualification Board continuing education program and become a continuing education sponsor. If you are a course sponsor for the North Carolina Board of Examiners of Electrical Contractors, you have already chosen to share your expertise and knowledge in the electrical industry. We share a common goal in providing code compliant buildings for all consumers and strive to provide uniformity and consistency in code enforcement.

During the 2005 legislative session, House Bill 658 was ratified to require continuing education for code enforcement officials holding active standard or limited certificates. As a condition of certificate renewal, six hours of continuing education must be completed for each active limited or standard certificate per renewal year in each technical area. The first renewal period requiring continuing education ends June 30, 2007 and each June 30 thereafter.

The administrative rules for the continuing education program require an approved organization or individual who would like to conduct a continuing education course as a course sponsor submit an application to the Board's staff for approval. An approved sponsor must offer at least one approved course. Approved courses must be "directly related to State Building Codes, inspection, administration, or enforcement of State Building Codes; construction or design of buildings or electrical, mechanical, plumbing, or fire prevention systems; or certification courses approved for CEOs."

The sponsor must also provide an approved instructor to teach the approved course. "Approved instructors shall have a minimum of one year of experience in architecture; engineering; construction; inspection; installation of equipment, building materials, or components; or other Code-related areas which shall be pertinent to the nature and purpose of the course(s) for which they will provide instruction."

Approval of a course and as a sponsor and instructor will require application submittals. Applications as well as administrative rules are available on our website at www.ncdoi.com. Please contact the Board's staff at 919-661-5880, Ext 241 for more information concerning our continuing education program. We look forward to your participation in our program.

DATES AHEAD

2006 IAIE SOUTHERN SECTION MEETING

The International Association of Electrical Inspectors (IAEI) will hold its Annual Southern Section Meeting at the Hilton, Fort Worth, TX, October 8-11, 2006. For detailed information, contact James Hathorn, Telephone 972-790-3910.

2006 ELECTRICAL APPRENTICE CONTEST

The 22nd Annual Electrical Apprentice Contest will be held at the NC State Fairgrounds on October 18, 2006. For detailed information, contact the NC DOI Apprenticeship and Training Bureau, Telephone 919-733-7533.

EMPLOYEE OR INDEPENDENT CONTRACTOR? EMPLOYEE LEASING OR LICENSE PEDDLING?

The Board has received questions about licensees using workers who do not receive a W-2 from the licensee, and is addressing the use of labor contractors. Payment, supervision, control of detail, risk and other factors are involved. While the Board will not tolerate license-peddling, the Board is aware that there may be situations where leased employees may be in compliance with Board rules.

Pursuant to NCGS 87-43.1 Exception (3), a person in the course of his work as a bona fide employee of a licensee of the Board is not required to hold a license of his own. Board Rule .0306 also sets out conditions that must be met. This rule identifies specific conditions the Board will require and evaluate to determine whether a person is exempt as an employee. Suggested items to keep in your files include:

EMPLOYEE or INDEPENDENT CONTRACTOR —TYPICAL SITUATIONS

Example 1. Pulling Wire Electric has worked with a General Contractor (GC) for many years. GC calls to say he has a motel project in Goldsboro that is too far for daily commute. Pulling Wire Electric

would hate for GC to start using somebody else. Pulling Wire Electric finds Jerry Jones near Snow Hill. Jerry has no license but agrees to help Pulling Wire Electric handle the work for \$20,000.00 if Pulling Wire Electric supplies fixtures. Pulling Wire Electric gets the permit and sends a superintendent every Monday. Jerry Jones is there every day, provides the people and keeps the job together the rest of the week.

Legal or not? What happens when the work fails inspection or doesn't get done on time?

Answer: Pulling Wire Electric is guilty of both peddling license and inadequate supervision and faces suspension of license and loss of business which took years to build. Jerry Jones and all his people are guilty of working without license. Neither Jerry Jones nor any of the helpers are "bona fide employees" of Pulling Wire Electric. Most likely Pulling Wire Electric gave Jerry Jones a 1099-MISC Form, and Jerry Jones gave cash to the helpers. Sending a superintendent once a week was inadequate supervision.

Example 2. Les Getuit has built his business up to three crews plus a service truck, doing mostly residential work. Last week, General Contractor (GC) calls to see if Les can take on the new Medical Office Building near the hospital. This is a great chance for Les to add some commercial work. He already has the necessary Intermediate license.

Les doesn't have enough people. Les sees that GC picks up crews for painting and framing, etc., pays on a 1099-MISC Form, and seems to make plenty of money. Les runs into Frank Brooks who says he has Fridays and weekends free and can get some more guys to help. Frank Brooks says he can line up 10 guys.

Is Les headed for riches or ruin? The latter. Frank Brooks and the boys are not bona fide employees. License trades are different from painters, masons and roofers. Lives depend on the work being right.

EMPLOYEE OR INDEPENDENT CONTRACTOR? EMPLOYEE LEASING OR LICENSE PEDDLING?

All the people on Les Getuit's office building must be bona fide employees and Les must supervise and direct their work.

Les can't build his business picking up labor like roofers or painters. Even though Les plans to be on the job every day, Frank Brooks and the boys are not bona fide employees. Frank is a supplier of electrical work, not a supplier of labor.

Example 3. After talking to the guys at the County Association meeting and reading the Electrical Board newsletter, Leas realizes he can put Frank Brooks on the payroll, even if it's just three days per week, and even if they also work somewhere else. With good supervision from Les, there will be no problem knowing who controls the work and who provides supervision.

Example 4. A year goes by. Frank Brooks calls Les and says "I finally passed the electrical board's test. I'd like to catch some of your overflow work". Les thinks to himself – I can't afford to hire Frank Brooks as an employee – I just don't get enough commercial to keep it going.

Does Les have to say "No" to Frank Brooks?

Answer: No. Subbing work to another licensee is not a problem. The work will be supervised and Frank Brooks can remain self-employed. The helpers do not need to be bona fide employees of Les, but they must be bona fide employees of Frank.

Example 5. Pulling Wire Electric has worked with GC for many years. GC calls to say he has a motel project in Goldsboro that is too far for daily commute. Pulling Wire Electric would hate for GC to start using somebody else. Pulling Wire Electric calls Manpower Labor Supply. Pulling Wire Electric and Manpower Labor Supply enter into a contract. Manpower Labor Supply will provide its employees to Pulling Wire Electric, and give them W-2s, medical, workers compensation. Pulling Wire Electric will have complete control and all liability and responsibility for the job, will direct all

details, including the ability to order any of Manpower's people off the job, and will pay Labor Supply for all the labor time used. The listed qualified individual of Pulling Wire is a bona fide employee (gets a W-2 Tax Statement) of Pulling Wire Electric. Is Pulling Wire Electric legal?

Answer: Yes. For tax purposes, these workers are considered employees of Manpower and leased workers to Pulling Wire Electric, and the contract is very clear that whether the work gets done, and how well, is up to Pulling Wire Electric. The payroll and supply service of Manpower does not mean the workers are working without license, and Pulling Wire Electric is not peddling the license. For purposes of liability, control, direction, and responsibility, these are employees of Pulling Wire Electric. Supervision is real, not theoretical.

SUMMARY

Failure to meet NCGS 87-43.1 Exception (3) will cause the person to be treated as an independent contractor engaging in the business of electrical contracting without a license, a misdemeanor offense. Also, the licensee will be treated as having sold or assigned the license and aided and abetted an unlicensed person, commonly called license peddling, a prohibited offense which can result in revocation of license.

NOTE: Compensation paid to an independent contractor is subject to reporting by 1099-MISC Form and/or W-9 Form.

There are many resources available to assist you in establishing your business. The Board offers the Business and Project Management for Contractors published by the National Association of State Contractors Licensing Agencies at \$30.00.

Also, the NC Department of Commerce has created the Business License Information Office, Telephone 800-228-8443 or visit the website: www.nccommerce.com/servicenter. Assistance is also available from the Internal Revenue Service www.irs.gov or the NC Department of Revenue www.dor.state.nc.us.

A MESSAGE FROM THE IMMEDIATE PAST CHAIRMAN

BOARD HISTORY CONTINUED Chapter 2

In our last newsletter, we explored “The First Thirty Years” of our licensing law, a period better known as the “Nathaniel Ellis Cannady, Sr. Era”. In this article, we will explore our Board history from 1967, the year of Mr. Cannady’s death, to the period ending April 15, 1978.

In the Fall of 1948, Mr. Richard B. “Dick” Boyd, Jr. was employed by the N. C. Department of Insurance in the position of Assistant State Electrical Inspector and Engineer; Mr. Cannady’s assistant. Upon Mr. Cannady’s death, Insurance Commissioner, Edwin Lanier promoted Mr. Boyd to succeed Mr. Cannady as the Chief State Electrical Inspector and Engineer, and appointed him to succeed Mr. Cannady as the Commissioner’s representative on our licensing board.

It should be noted here that under the provisions of the Electrical Contracting Licensing Act as enacted in 1937, the Board’s chairman was not elected by the board members as was stated in our last newsletter article, but the statutes stipulated that the Insurance Commissioner’s designated member of the board automatically served as the Board’s chairman. As stated in our first article, Mr. Cannady continuously served as the Commissioner’s appointee to the Board from enactment of the Electrical Contracting Licensing Act in 1937 until his death in 1967. Accordingly, he served as the Board’s chairman throughout this first 30 year period.

Upon Mr. Boyd’s appointment by Commissioner Lanier, he automatically became the Board’s chairman by law. At this time, the beginning of a new era in the Board’s history was on the horizon. This new beginning was also the beginning of the period in the Board’s history known as the Era of the Rewrite and Reenactment of the Electrical Contracting Licensing Act, but better known as the Richard B. “Dick” Boyd, Jr. Era.

Shortly before Mr. Cannady’s death, he mentioned to this writer some concerns he had

regarding the out-datedness of the existing Licensing Act and the need, as he saw it, for a complete re-write and re-enactment of the electrical contracting laws of our state, especially in the areas of license classifications, the Board’s limited authority for the administration of the licensing laws; lack of enabling authority to employ a full time administrator to manage the every day operations of the Board; and the need to eliminate a troublesome provision in the licensing act contained in a last minute amendment by the N.C. General Assembly in 1961. This 1961 troublesome amendment contained provisions whereby any person whose parent was a licensed electrical contractor and who had attained the age of 40 years by June 22, 1961, and who had served continuously as a mechanic for a licensee of the Board was entitled to an electrical contracting license issued by the Board without having to take and pass the normally required qualifying examination.

There were some other items of house-cleaning Mr. Cannady felt needed to be taken care of in the licensing act. To Mr. Cannady’s disappointment, he was not successful in accomplishing this rewrite during his lifetime.

Upon Mr. Boyd succeeding Mr. Cannady, he soon saw the same need for a rewrite of the licensing act and he too discussed his concerns with this writer.

Mr. Boyd not only inherited the chairmanship of the Board, but also the responsibilities for overseeing the daily operations of the Board. He soon realized it was going to be virtually impossible for him to fulfill his duties as the state’s Chief Electrical Inspector and Engineer and still be able to spend enough time to do justice in overseeing the Board’s daily operations. This realization by Mr. Boyd put a further emphasis on the urgency for this rewrite and reenactment of the licensing act and prompted him to spring into action to develop an appropriate proposed rewrite of Chapter 87, Article 4 of the N. C. General Statutes.

A MESSAGE FROM THE IMMEDIATE PAST CHAIRMAN (CONT.)

To accomplish the desired results, Mr. Boyd, together with his fellow board members, Howard Pancoast, Oscar Greene, John McClelland, and Wayland Seagraves; the able counsel of attorney John R. Jordan and his firm of Jordan, Morris and Hoke; and leaders from other important facets of the electrical industry and other public interests set out to develop the Board's proposed rewrite of the Electrical Contracting Licensing Act.

Under Mr. Boyd's tireless and committed leadership, a proposal was finalized and ready for the pursuit of appropriate legislative action to cause this rewrite to be accepted, enacted and ratified. One of the great assets in getting favorable legislative action rested with Mr. Jordan. Mr. Jordan, having served as a senator in the State Legislature, had over the years built a respect within his legislative colleagues and friends which no doubt contributed greatly to the legislature's favorable action in accomplishing the desired result.

On June 2, 1969, the Board's efforts, under Mr. Boyd's leadership and the able counsel of Mr. Jordan and his firm, culminated in the legislature's adoption and ratification of a New Act entitled "An Act to Rewrite and Reenact Chapter 87 Article 4 of the N. C. General Statutes." All provisions of the new act were to become effective upon ratification except for the provisions applicable to the new license classifications which were to become effective July 1, 1970.

Some of the major provisions in the newly enacted act were:

- The Insurance Commissioner's designee on the board no longer automatically served as the Board's chairman, but the chairman, along with the vice-chairman and secretary-treasurer were to be elected by the board members themselves at the Board's Regular First Quarter Board Meeting to serve for a term of one year. There was no limit to the number of one-year terms board officers could be elected to serve, nor was there any limit as to the number of consecutive terms

board members could be appointed or designated to serve.

- Empowered the Board with the authority and responsibility for the development and implementation of the necessary rules and regulations for the implementation of the new Act including provisions for grandfathering existing Class I and Class II licensees into one of the three new license classifications.
- Immediate authority for the Board to employ a full-time administrator to oversee the Board's operations and to employ whatever assistants the Board deemed necessary. Having been authorized to do so, Mr. Boyd contacted this writer for recommendations as to possible candidates he thought might be qualified for the Board's new administrator. After considerable discussion of possible candidates, this writer indicated to Mr. Boyd that he might be interested in a new career change. Subsequently, the Board authorized Vice-Chairman Howard Pancoast to negotiate an offer of this new position to this writer. After negotiating with Mr. Pancoast, this writer found the terms and conditions of employment offered by Mr. Pancoast in behalf of the Board to be acceptable and upon Mr. Pancoast's report on his negotiation and recommendation, the Board voted unanimously to employ this writer effective February 1, 1970. Prior to February 1, 1970, this writer had assisted the Board with the proposed rewrite of the Licensing Act and subsequent to the Legislature's ratification of the new Licensing Act, had assisted the Board with the preliminary development of the Board's rules and regulations for the implementation of the new law. Upon his employment, this writer's first and foremost assignment by the Board, along with staff development and organization, was to develop, organize and put together a comprehensive set of rules

A MESSAGE FROM THE IMMEDIATE PAST CHAIRMAN (CONT.)

and regulations for the Board's review and consideration for the full implementation of the new Licensing Act. Building upon efforts previously made by the Board, and under Mr. Boyd's leadership and ideas put forth by Mr. Pancoast and the other board members, a comprehensive set of rules and regulations for the full implementation of the new Licensing Act was presented to the Board for review and any revision desired by the Board. The process of developing these rules and regulations was a complex one culminating in the Board's adoption, duly filing and distribution of same to all affected parties for the full implementation of the new Licensing Act effective April 15, 1970.

- The new Licensing Act established three new license classifications replacing the old Class I state-wide and Class II one-county only classifications. These three new classifications were:
 - Limited - Limited to electrical contracting projects not exceeding \$5,000.00 and voltage not in excess of 600 volts.
 - Intermediate - Limited to electrical contracting projects having a value not in excess of \$50,000.00
 - Unlimited - No limitations

The annual license fees for the new classifications were:

- Limited - \$15.00
- Intermediate - \$35.00
- Unlimited - \$70.00

The Board's official Rules and Regulations contained grandfather provisions for holders of Class I and Class II licenses to obtain a license in one of the new license classifications as follows:

- Any holder of a Class I license under the old law was entitled to obtain a license in either the unlimited, intermediate or limited classification

by simply filing an application to the Board stating the licensee's choice of one the new classifications and paying the appropriate annual license fee.

- Any holder of a Class II license was entitled to obtain a limited license by simply filing the appropriate application and pay the \$15.00 annual fee; and any holder of a Class II license was entitled to a license in the new intermediate classification by filing the appropriate application, furnishing sufficient evidence that the licensee had satisfactorily completed electrical contracting projects having a value in excess of \$5,000.00 or furnish a bonding ability statement verifying the licensee's bonding ability for electrical contracting projects having a value in excess of \$5,000.00, and by paying the \$35.00 license fee; and any holder of a Class II license was entitled to a license in the unlimited classification by filing the appropriate application and furnishing sufficient evidence that the licensee had satisfactorily completed electrical contracting projects having a value in excess of \$50,000.00 or by furnishing a bonding ability statement verifying the licensee's bonding ability for electrical contracting projects in excess of \$50,000.00 and by paying the \$70.00 annual license fee.

The Board's rules also provided that once a licensee initially selected a license classification lower than he was initially entitled to the licensee could not later upgrade to a license in a higher classification without meeting all requirements of a new applicant

A MESSAGE FROM THE IMMEDIATE PAST CHAIRMAN (CONT.)

including taking and passing the normally required qualifying examination. There were provisions for the Board to waive the upgrading requirement in a justifiable case of extenuating circumstances allowing a second chance for a choice of a new license classification under the new law and the Board's Rules.

Except for a few unusual cases, the Board and the Board's licensees were pleased with this initial transition of license under the new law and the Board's Rules. Having successfully worked through the development and adoption of the Board's Rules and Regulations for the implementation of the new Licensing Act and seeing the positive early results of the change over from the old law to the new, Mr. Boyd, at a special Board meeting held June 23, 1970 requested the Board to relieve him of the chairmanship and elect a new chairman of the Board. The board members commended Mr. Boyd for the outstanding leadership he had provided in guiding the Board through this most important and complicated period in the Board's history. At this time, the board members elected Mr. Howard Pancoast Chairman and Mr. John McClelland, Vice-Chairman. Earlier, this writer was appointed by the Board to succeed Mrs. Elizabeth Anderson as Secretary-Treasurer of the Board. Mrs. Anderson retired after serving continuously as the Board's second Secretary-Treasurer from 1938 until 1970.

At the Board's Regular Second Quarter Board meeting in 1970, Mr. Pancoast, together with other board members, again complimented Mr. Boyd through a memorandum from him to the Board, a memorandum adopted by the

Board and filed with the minutes of this meeting. This memorandum stated "Mr. Boyd's capable and dedicated leadership carried the Board through a most difficult transition period in the Board's history." Mr. Pancoast further stated in his memorandum, "It is my considered judgment that no other individual in this State would have enjoyed such universal acceptance as Board Chairman at this particular time and that no one else could have accomplished what he did." This same feeling about Mr. Boyd was shared throughout the electrical industry. Thus it is right and proper that this period in the Board history be best known as "The Richard B. "Dick" Boyd, Jr. Era."

Upon Mr. Pancoast becoming the Board's Chairman, a new era in the history of the Board began. One of Mr. Pancoast's first objectives for the Board was the establishment of Board committees to deal with and make recommendations for the Board's consideration in the Board's decision-making process. He also presented proposed guidelines which he felt necessary toward restructuring the Board's operations for maximum effectiveness. Mr. Pancoast's recommended guidelines included passing the responsibilities for the Board's day-to-day operations from the Board's Chairman and the other board members to the Board's Executive Director. The Board members unanimously adopted Mr. Pancoast's recommended guidelines for the Board's operations, thus the era of the Executive Director's management of the Board's operations was finalized by the Board and remains intact to date.

A MESSAGE FROM THE IMMEDIATE PAST CHAIRMAN (CONT.)

Mr. Pancoast served on the Board as the NCAEC's fourth designee since the enactment of our Licensing Law in 1937 and he served continuously as NCAEC's designee to the Board for 18 years; the last 8 years as Chairman until his retirement in 1978.

Some of the most important events occurring in the Board's history during Mr. Pancoast's Chairmanship include:

- Formulating and establishing a licensing reciprocity agreement between our Board and the South Carolina Contractors Licensing Board. (1971) This was the first such agreement entered into by our Board.
- Development and Board adoption of a "Policy For the Retention and Disposition of the Board's Records" with N. C. State Department of Archives and History. (1971)
- Developed and implemented a Board "Financial and Budgeting Policy". (1971)
- Development and adoption of a Board policy for "Conducting Specially Arranged Examinations and for conducting Examinations in geographical areas in the State in addition to Raleigh, NC. (1971)
- Developed and adopted the Board's first official Personnel Regulations. (1971)
- Developed and adopted a policy defining "Point of Delivery" as applicable to the electrical contracting and general contracting laws and rules and policies of the electrical utilities serving installations in North Carolina. (1972)
- Obtained legislation to enable the Board to establish special restricted license classifications. (1973)
- Statutory Mandate from State Legislature for the Board to establish and implement a license classification applicable to single family detached dwellings. Pursuant to this mandate, the Board established and developed regulations to implement the single family detached residential dwelling license classification – SP-SFD. There was no project value limitation for this license classification. (1973)
- Formulated and adopted a joint resolution between our Board and the N.C. State Board of Refrigeration Examiners whereby the Refrigeration Board will include on their examinations the necessary electrical examination questions developed and provided by our Board to assure that the refrigeration examinees are required to demonstrate sufficient knowledge before they are licensed by that Board to do certain limited electrical work in connection with the installation and repair of refrigeration equipment. (1973)
- Designed and developed "wall mounted diploma type" permanent certificates to be provided to all persons who had taken and passed a qualifying examination for an electrical contracting license and for all persons successfully taking and passing the required qualifying examination in the Limited, Intermediate or Unlimited classifications. (1973)

A MESSAGE FROM THE IMMEDIATE PAST CHAIRMAN (CONT.)

- Implemented legislative authority to increase the project value limitation of the Limited classification from \$5,000.00 to \$10,000.00. (1975)
- Developed a new examination program with the assistance of the Educational Testing Service (ETS) based in Princeton, New Jersey, in setting up this new format. The Board also solicited the assistance of a special Ad Hoc Committee consisting of leading licensees, electrical inspectors, engineers, and other leaders in the electrical industry to work with the Board and ETS in the development of examination standards including the specific subject matters to be covered in each examination, the number of questions in each subject matter that should be included in each examination and the development of a question bank of at least 800 questions from which each examination is to be assembled. All questions to be of the multiple-choice type with all Limited, Intermediate, and Unlimited examinations consisting of two parts with 50 questions in each part.

Upon the completion of this task of developing the 800 question bank and examination specifications, the Board was ready to proceed with this new examination program. Under the Board's contractual agreement with ETS, the Board's examinations were assembled by ETS from the Board's question bank in

accordance with the Board's specifications.

ETS would ship the assembled examinations to the Board's office. The assembled examinations were first reviewed by the staff, then by the Board's Examination Committee. After review and Board's approval, the examinations were administered by the Board's staff. The answer sheets were then shipped to ETS for scanning, scoring and question by question, subject matter by subject matter detailed analysis by ETS. The examination grades together with an individual examinee analysis report were then forwarded to the Board's office for review and approved after which each examinee was advised of his or her examination results.

A process for failed examinees, wishing to do so, was implemented to provide for examination reviews. This new examination program constituted a revolutionary change in the Board's examination process going from the old essay-code book look-up, part open and part closed book written and hand graded examination to a computer developed-computer graded open book examination with a complex analysis of examination results.

In 1977, the Board developed a system within the Board's office whereby staff could duplicate the service being provided by ETS in the process of assembling examinations.

A MESSAGE FROM THE IMMEDIATE PAST CHAIRMAN

From the Board's question bank and through an arrangement with N.C. State University's Computer Department, the Board could receive the same type of scanning and scoring, and analysis as ETS was providing through this new in office examination process and the arrangement with N.C. State University, the Board no longer needed ETS's services and in July 1977, the Board terminated the agreement with ETS and made final settlement for their services. The first examinations administered without the aid of ETS were administered in the September 1977 examination period.

- Formulation and Board adoption of an Interpretive Ruling applicable to General Statute 87-43.1, Exception No. 3 titled "Employee Exception".
- Development, adoption and implementation of standards, rules, regulations and procedures for the establishment of special restricted licenses in the following classifications:

Special Restricted Elevator license (SP-EL)
Special Restricted Plumbing and Heating licenses (SP-PH Class I: and SP-PH Class II)
Special Restricted Well Pump license (SP-WP)

Special Restricted Electric Sign license (SP-ES) 1976

- Adopted a Declaratory Ruling declaring that the scope of work authorized under the SP-PH Class II license falls within the statutory jurisdiction of the N. C. Plumbing and Heating Licensing Board; and therefore ruled that this classification of license was no longer needed and declared it null & void. (1977)

During Mr. Pancoast's long term on the Board, he was privileged to have served with nine other distinguished board members in the order of the appointments: Messrs N.E. Cannady, Sr.; Professor M. R. Pearsal; Charlie Gudger; Hector Ray; Professor Wayland Seagraves; John R. McClelland; Oscar Greene, Jr.; Tommy Watson; and Richard B. "Dick" Boyd, Jr.

Mr. Pancoast's final term on the Board as the NCAEC's representative came to a close April 15, 1978, concluding 18 years of continuous Board service, the last 8 years of which he served as Chairman. It was his leadership during the crucial years of his Chairmanship that resulted in this period in the Board's history to be proclaimed by all who knew him and familiar with his accomplishments as "The Howard R. Pancoast Era". Although he no longer served on the Board, Mr. Pancoast's interest in the effective administration of the N.C. Electrical Contracting Licensing Laws never wavered and he will long be remembered as a faithful servant of the public and a giant in the electrical industry.

(To Be Continued)

Respectfully,
Curtis R. Kennedy

RECENT DISCIPLINARY ACTION TAKEN BY THE BOARD

COURT CASES

CASE FILE NUMBER: #2004-4

NON-LICENSEE: James Allen Coberly
Coberly Electrical Services

ADDRESS: 425 Quail Lane
Kill Devil Hills, NC 27948

VIOLATION: Engaging in the business of electrical contracting without being licensed to do so.

COURT ACTION: Civil Action instituted in Currituck County Superior Court resulting in entry of Court Order on November 28, 2005, whereby James Allen Coberly of Coberly Electrical Services is permanently restrained from engaging in the business of electrical contracting as defined in Article 4, Chapter 87 of the General Statutes of North Carolina, until such time he has been issued a license from the Board. The defendant was assessed with the costs of this action.

EFFECTIVE DATE: November 28, 2005

CASE FILE NUMBER: #2004-56

NON-LICENSEE: John Michael Shifflett
Affordable Electrical Services

ADDRESS: PO Box 9103
Wilson, NC 27895

VIOLATION: Engaging in the business of electrical contracting without being licensed to do so.

COURT ACTION: Civil Action instituted in Wilson County Superior Court resulting in entry of Court Order on November 10, 2005, whereby John Michael Shifflett of Affordable Electrical Service is permanently restrained from engaging in the business of electrical contracting as defined in Article 4, Chapter 87 of the General Statutes of North Carolina, until such time he has been issued a license from the Board. The defendant was assessed with the costs of this action.

EFFECTIVE DATE: November 10, 2005

CASE FILE NUMBER: #2004-69

NON-LICENSEE: Charles Jackson
Jackson Refrigeration

ADDRESS: PO Box 3086
Lumberton, NC 28384

VIOLATION: Engaging in the business of electrical contracting without being licensed to do so.

COURT ACTION: Civil Action instituted in Robeson County Superior Court resulting in entry of Court Order on January 23, 2006, whereby Charles Jackson, Jackson Refrigeration is permanently restrained from engaging in the business of electrical contracting as

defined in Article 4, Chapter 87 of the General Statutes of North Carolina, until such time he has been issued a license from the Board. The defendant was assessed with the costs of this action, and informed that further violations will be punished as Contempt of Court.

EFFECTIVE DATE: January 23, 2006

NOTICE OF VIOLATION

CASE FILE NUMBER: 2005-187

LICENSEE: Comfort Zone Heating-Cooling & Electrical Services

ADDRESS: P. O. Box 16285
Greensboro, NC 27406

LISTED QUALIFIED INDIVIDUAL: Kirby Lynn Proffitt

LICENSE NUMBER: 16050-L

VIOLATION(S): Violation of North Carolina General Statutes 87-47 (a1) (5) (7) in that Respondent undertook to perform electrical contracting work on a project and:

- (1) Abandoned and failed to complete the project in a timely manner although he was paid nine thousand and four hundred and fifty dollars (\$9,450.00);
- (2) Failed to provide adequate supervision of employees and the project; and
- (3) Engaged in deceit or unethical conduct in the use of the firm's license.

BOARD ACTION: The Board staff proposed the imposition of license suspension for a period of 12 months, during which time the licensee must reimburse the owner \$5,500.00. Upon reinstatement, the license will be placed on probation for a period of two (2) years

with revocation of license and the right to serve as a listed qualified individual on any license issued by the Board upon failure to comply with the General Statutes and Rules of the Board.

There was no objection from the licensee and the Board concurred in the action of staff.

EFFECTIVE DATE: June 22, 2006

CASE FILE NUMBER: 2005-217

LICENSEE: Piedmont Energy Services, LLC

ADDRESS: P. O. Drawer 1179
Hillsborough, NC 27278

LISTED QUALIFIED INDIVIDUAL: Jason Thomas Holt

LICENSE NUMBER: 23566-L

VIOLATION(S): Violation of North Carolina General Statute 87-47 (a1)(7) and 153A-357 in that the licensee:

- (1) Continued, after issuance of a verbal warning by field staff, installing stand-by generators and related wiring without obtaining required permits and inspections; and
- (2) Engaged in negligence and misconduct in the practice of electrical contracting.

BOARD ACTION: The Board staff proposed the imposition of a written reprimand, civil penalty in the amount of one thousand dollars (\$1,000.00) and one (1) years probation, with suspension of license and the right to serve as a listed qualified individual on any license issued by the Board upon failure to comply with the following conditions:

- (1) No further violation of the General Statutes or the Rules of the Board; and
- (2) Make all records available for inspection by the Field Staff, during regular business hours.

There was no objection from the licensee and the Board concurred in the action of staff

EFFECTIVE DATE: February 23, 2006

CASE FILE NUMBER: 2005-219

LICENSEE: Electric & Telecom Solutions, Inc.

ADDRESS: P. O. Box 155
Holly Ridge, NC 28445

LISTED QUALIFIED INDIVIDUAL: Michael Eugene Pierce

LICENSE NUMBER: 23323-L

VIOLATION(S): Violation of North Carolina General Statutes 87-47 (a1)(2)(3)(5) and (7) in that the licensee:

- (1) Sold or transferred his license to Gregory Allen Cavanaugh who was not a bona fide employee of Electric & Telecom Solutions, Inc.;

RECENT DISCIPLINARY ACTION TAKEN BY THE BOARD

- (2) Aided and abetted an unlicensed person, Gregory Allen Cavanaugh, to engaged in electrical contracting project located at 124 Mill Pond Road, Jacksonville, NC; and
- (3) Engaged in unethical conduct by failing to provide adequate supervision in the use of the license.

BOARD ACTION: The Board staff proposed the imposition of a civil penalty in the amount of one thousand dollars (\$1,000.00) and two (2) years probation, with revocation of license and the right to serve as a listed qualified individual on any license issued by the Board upon failure to comply with the following conditions:

- (1) No further violation of the General Statutes or the Rules of the Board;
- (2) Obtain written and signed contracts for all electrical projects over one hundred dollars (\$100.00) in value;
- (3) Maintain an organized list of all electrical contracts;
- (4) Obtain all required electrical permits prior to starting any electrical project;
- (5) Complete all electrical projects in a timely manner;
- (6) Obtain an approved final electrical inspection within ten (10) days after completion of all electrical projects;
- (7) Properly supervise and direct all employees and projects;
- (8) Maintain a roster of names of all employees;
- (9) Maintain complete payroll records for all employees;
- (10) Pay all required Federal Taxes and State Taxes for your employees and keep valid records of the transactions; and
- (11) Michael Eugene Pierce shall enroll in the Contractor Business class (Umpire Technologies Group, Inc., 919-624-3456, www.umpiretechnologiesgroup.com) approved by the State Board of Examiners of Electrical Contractors and present evidence to the Board of a passing grade in such course by October 18, 2006.

There was no objection from the licensee and the Board concurred in the action of staff.

EFFECTIVE DATE: February 23, 2006

Asheville, NC 28814

LISTED QUALIFIED INDIVIDUAL: Carl Whitt

LICENSE NUMBER: 7554-SP-ES

VIOLATION(S): Violation of North Carolina General Statute 87-47 (a1) (1) in that the licensee continued to engage in electrical contracting after expiration of license.

BOARD ACTION: The Board's staff proposed the imposition of a reprimand.

There was no objection from the licensee and the Board concurred in the action of staff.

EFFECTIVE DATE: June 22, 2006

CASE FILE NUMBER: 2006-61

LICENSEE: Sunrise Electric

ADDRESS: 730 Burning Tree Road
Pinehurst, NC 28374

LISTED QUALIFIED INDIVIDUAL: Charles

Fredrick Johnson

LICENSE NUMBER: 20089-L

VIOLATION(S): Violation of North Carolina General Statutes G. S. 87-47 (a1) (2) and (3) in that the licensee:

- (1) Sold and transferred the license to individuals who were not bona fide employees of Sunrise Electric; and
- (2) Aided and abetted unlicensed activity in that the employees of Carolina Energy Consultants were not bona fide.

BOARD ACTION: The Board staff proposed the imposition of a reprimand and to commit no further violation of the General Statutes or the Rules of the Board.

There was no objection from the licensee and the Board concurred in the action of staff.

EFFECTIVE DATE: June 22, 2006

CASE FILE NUMBER: 2006-69

LICENSEE: Faith Electrical Services

ADDRESS: 769 Rice Road

Lumberton, NC 28358

LISTED QUALIFIED INDIVIDUAL: Jeffrey Ronald Ivey

LICENSE NUMBER: 25196-L

VIOLATION(S): Violation of North Carolina General Statutes 87-47 (a1) (7) in that the licensee:

- (1) Abandoned electrical contracting project located at 142 Butterfly Drive, Pembroke, NC with code violations unaddressed; and
- (2) Has had prior projects with code violations in the Robeson County area and failed to correct code violations in a timely manner.

BOARD ACTION: The Board staff proposed the imposition of a reprimand and a civil penalty in the amount of five hundred dollars (\$500.00) and one (1) year probation, with revocation of license and the right to serve as a listed qualified individual on any license issued by the Board in the event of failure to comply with the following conditions:

- (1) No further violation of the General Statutes or the Rules of the Board;
- (2) Obtain written and signed contracts for all electrical projects over one hundred dollars (\$100.00) in value;
- (3) Obtain all required electrical permits prior to starting any electrical projects;
- (4) Properly supervise and direct all employees and projects; and
- (5) Enroll in the Contractor Business Class (Umpire Technologies Group, Inc., 919-624-3456, www.umpiretechnologiesgroup.com) approved by the State Board of Examiners of Electrical Contractors and present evidence to the Board of a passing grade in the course by April 30, 2007.

There was no objection from the licensee and the Board concurred in the action of staff.

EFFECTIVE DATE: June 22, 2006

ORDERS

CASE FILE NUMBER: 2003-161

LICENSEE: Gold Medallion Electric Company

ADDRESS: 14260 Maple Hollow Lane
Charlotte, North Carolina 28227

LISTED QUALIFIED INDIVIDUAL: Edward Keith

Haynes

LICENSE NUMBER: 10957-L

VIOLATION(S): An Order was entered by the Board on February 24, 2005. The order provided that the respondent's license be placed on two (2) years

RECENT DISCIPLINARY ACTION TAKEN BY THE BOARD

probation with conditions of probation to make restitution within ten (10) days to the homeowner, complete coursework within six (6) months, have no more bad checks, obtain no money on any job prior to rough-in inspections and no more than 50% of money prior to passing final inspection and commit no violation of Article 4, Chapter 87 of the General Statutes or the Rules of the Board.

BOARD ACTION: The Respondent failed to comply with the conditions of the February Order and the matter was heard again by the Committee in May 2005. Respondent presented no explanation or evidence in mitigation of the violations.

The Disciplinary Committee considered the matter and issued a Recommended Order that the Respondent's license and qualifications to engage in business as an electrical contractor be revoked unless, within six months, he made restitution, completed coursework and met the other conditions of a prior February 24, 2005 Board Order.

Edward Keith Haynes, Gold Medallion Electric Company failed to meet the conditions of the Board Order and the license and qualifications were revoked.

EFFECTIVE DATE: December 24, 2005

CASE FILE NUMBER: 2005-64
LICENSEE: Will Dickerson Electric Co., Inc.
ADDRESS: 112 Shadowbrook Drive
Hillsborough, NC 27278

LISTED QUALIFIED INDIVIDUAL: Wilton James Dickerson, Jr.
LICENSE NUMBER: 17835-L
VIOLATION(S): Violation of North Carolina General Statute 87-47 (a1) (4) and (5) in that: Respondent failed to disclose criminal convictions on License Renewal Application. These offenses raised issues with respect to the character and conduct of the Respondent and a question of risk to persons on a job site.

BOARD ACTION: After a hearing before the Board Disciplinary Committee, the Committee recommended:
1. That the license of Respondent firm be renewed upon receipt of appropriate and supportive reference letters from the contractors with whom Respondent frequently works.
2. That upon license renewal, license be restricted such that the work of Respondent be limited to new construction.
3. That Respondent have no further convictions for drug or alcohol offenses, crimes of violence or moral turpitude in the

next three years.
4. That staff of the board flag the file and carry out an annual record check each of the three years.

There was no objection from Mr. Wilton James Dickerson, Jr. and the Recommended Order was approved by the Board as a Final Order on June 29, 2006.

EFFECTIVE DATE: July 29, 2006

CASE FILE NUMBER: 2005-209
LICENSEE: Frank Lutz, dba Lutz Electric
ADDRESS: 9816-1 Emerald Point Drive
Charlotte, NC 28278

LISTED QUALIFIED INDIVIDUAL: Francis Joseph Lutz
LICENSE NUMBER: 17859-U
VIOLATION(S): Violation of North Carolina General Statute 87-47 (a1) (5) and (7) in that: Respondent undertook to perform electrical contracting work on property located at 2725 Wamath Drive, Charlotte, North Carolina belonging to Deborah Rasberry. In the course of work on the project Respondent:

- (a) even though paid in full for electrical contracting, failed to complete the job in a reasonable amount of time and left the project with numerous code violations;
- (b) failed to obtain required permits and inspections; and
- (c) engaged in malpractice in the use of his license.

BOARD ACTION: After a hearing before the Board Disciplinary Committee, the Committee recommended:
1. That the license of Respondent firm and the status of Respondent Francis Joseph Lutz, as a qualifying individual, be suspended for a period of ninety (90) days; and
2. That license and qualification not be reinstated at the end of the 90 day suspension until Respondents present sufficient evidence to the Board staff that the amount remaining due to Deborah Rasberry, \$686.76, has been repaid.
3. After reinstatement of license, Respondents shall be on probation for a period of two (2) years, subject to the conditions that Respondent:
(a) have written contracts or proposals signed by the licensee and customer for each installation for which licensee is responsible;
(b) obtain permits as required for each contract prior to commencement of work, retain a

RECENT DISCIPLINARY ACTION TAKEN BY THE BOARD

copy of the permit in the job file for each particular installation and assure that a final inspection has been performed by the Local Code Enforcement Official for each installation within 10 days of substantial completion of the work;

- (c) maintain job files or other written records of contracts made and installations performed;
- (d) maintain records detailing and documenting his compliance with the provisions of this probation order which records shall be available for inspection at any time during normal business hours upon request of the staff of the Board;
- (e) obtain no more than 50% of a contract price prior to completion of the installation and passage of final inspection by the local code enforcement official; and
- (f) commit no violation of Article 4, Chapter 87 of the General Statutes or the Rules promulgated by the Board.

There was no objection from Mr. Francis Joseph Lutz and the Recommended Order was approved by the Board as a Final Order on June 29, 2006.

EFFECTIVE DATE: July 29, 2006

CASE FILE NUMBER: 2006-07

LICENSEE: Evans Electrical Enterprises

ADDRESS: 2914 Phillips Ave
Greensboro, NC 27405

LISTED QUALIFIED INDIVIDUAL: Shamori

Demont Evans

LICENSE NUMBER: 24691-L

VIOLATION(S): Violation of North Carolina General Statute 87-47 (a1) (7) in that:

1. Respondent undertook to perform electrical contracting work on property located at 3403 Raccoon Run Drive, Whitsett, North Carolina. In the course of work on the project Respondent:
 - (a) failed to install wiring in accordance with the North Carolina State Electrical Code, NFPA 70 National Electrical Code, and bypassed overcurrent protection leading to a fire with a fire loss of approximately \$379,000.00;
 - (b) ignored the directive from the Guilford County Inspection Department to discontinue the practice of using unsafe electrical wiring during construction; and
 - (c) engaged in malpractice and demonstrated

incompetence, and gross negligence in the business of electrical contracting.

2. Respondent demonstrated a lack of basic understanding of voltage drop and safety protection.

BOARD ACTION: After a hearing before the Board Disciplinary Committee, the Committee recommended:

1. That the Respondent's license and that of Respondent firm to engage in business as an electrical contractor be placed on probation for a period of one (1) year, effective upon final action by the Board.
2. During the period of probation, Respondent shall comply with the following conditions of probation:
 - (a) have written contracts or proposals signed by the licensee and customer for each installation for which licensee is responsible;
 - (b) obtain permits as required for each contract prior to commencement of work, retain a copy of the permit in the job file for each particular installation, assure that a final inspection has been performed by the Local Code Enforcement Official for each installation and make no modifications after inspection;
 - (c) maintain job files or other written records of contracts made and installations performed;
 - (d) within six months enroll in and successfully pass eight hours continuing education in courses related to electrical safety by personal attendance at classes over and above the usual continuing education requirement; and
 - (e) commit no violation of Article 4, Chapter 87 of the General Statutes or the Rules promulgated by the Board.

There was no objection from Mr. Shamori Demont Evans and the Recommended Order was approved by the Board as a Final Order on June 29, 2006.

EFFECTIVE DATE: July 29, 2006

CONSENT AGREEMENTS

Criminal background checks a randomly conducted on examination applicants at the time examination applications are received and on listed qualified individuals at the time of issuance of a license and license renewal. Persons with criminal convictions are evaluated to determine if the matter is under the purview of the Board and may be resolved by consent agreement signed by the individual stating that they will be in full compliance of the court imposed sanctions and sanctions of the Board. The individual further acknowledges that failure to comply with the court or Board sanctions could lead to formal proceedings by the Board and more serious sanctions against the individual.
